ABSTRACT

Courseware is a software used for teaching and learning purposes in a particular curriculum area. It can be used for any levels start from pre-school students, primary and secondary school students until university's students, but the way to present this courseware to every stage is definitely different from each other. Usually, it provides direct interactive learning in order to attract the audiences. The development of this project is to develop a courseware on learning Science for pre-school kids and teachers in order to provide them with interactive learning. This project only concern on pre-school kids aged between five to six years old. The topics that covered in this development focused on basic learning of science such are human's body and introduction to animals and plants and their parts. Pedagogy is another important element that also included in this project. Therefore, many studies were conducted to apply pedagogy concepts in this courseware and considered certain suggestions from the preschool teachers to produce a quality courseware and achieve the objectives of this project. It is hoped that this courseware will give benefit to preschool kids by helping them to give proper understanding on the topics which were covered inside.

TABLE OF CONTENTS

CONTENTS	PAGE
Declaration	ii
Acknowledgement	iii
Abstract	iv
List of Figures	ix
List of Tables	xi
1.0 INTRODUCTION	1
1.1 Introduction	1
1.2 Research Background	1
1.3 Problem Description	2
1.4 Objectives Of Research	3
1.5 Scope Of Research	3
1.6 Significance Of Research	4
1.7 Limitation Of Research	4
1.8 Conclusion	5
2.0 LITERATURE REVIEW	6
2.1 Definition Of Courseware	6
2.2 The Needs Of Courseware In Learning Science	6
2.3 Quality Of Courseware	7
2.4 Components Of Courseware	8
2.5 Implementations Of Hypermedia Into The Courseware	9
2.6 Interview Courseware Engineering Methodology	10
2.7 Intellectual Development For Five-Years-Old Kids	13
2.8 Pedagogy Concepts	14
2.8.1 Definition Of Pedagogy	15
2.8.2 Learning Approaches In Pedagogy	15
2.8.3 Teaching Approaches In Pedagogy According To Dale	22
2.8.4 Teaching Method	25
2.8.5 Preparing Question	27
2.8.6 Prepare Question Based On It's Function	29

2.8.7	Acceptation On Student's Answer	29
2.9	Relationship Between Pedagogy And Science Education	30
2.10	Pre-School Teaching Practices	31
2.11	Music In Education	32
2.12	Similar Projects	33
2.12.1	Smart Kids	33
